tenable with yuki

How we **reduced 33%** of Tenable snowflake bill with zero engineering effort

tenable

About Tenable

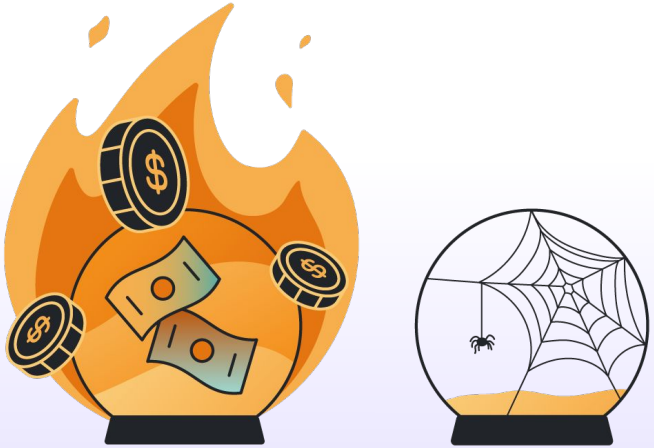

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between.

By protecting enterprises from security exposure, Tenable reduces business risk for approximately 44,000 customers around the globe. Learn more at www.tenable.com

Cyber Security

Challenges

Escalating Costs

Managing Snowflake's infrastructure for optimal cost-efficiency was a growing challenge, with significant monthly spending.

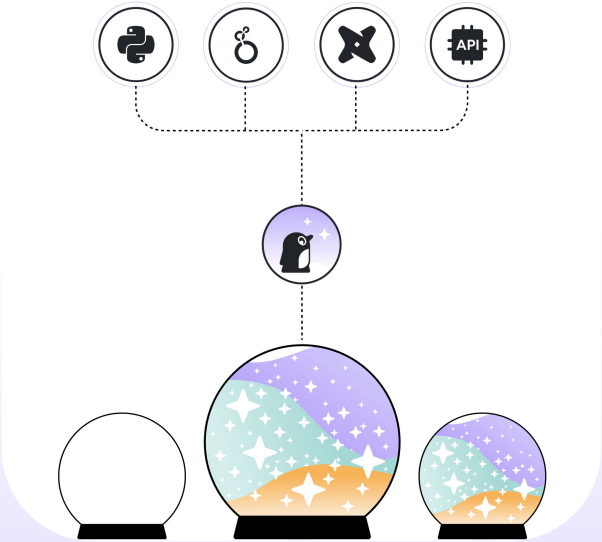

Underutilized Resources

Warehouse resources were not being fully utilized, leading to inefficiencies and unnecessary expenses.

Engineering Overhead

Engineers were spending substantial time on manual cost optimization tasks, reducing their capacity to focus on core security innovations.

Solution

Seamless Integration

Yuki's integration was swift and straightforward, requiring just an update to the connection string. Within less than an hour, Tenable's system was optimized for efficiency.

Workload Consolidation

Yuki's real-time load-balancer, matches queries to the optimal warehouse - 100% warehouse utilization.

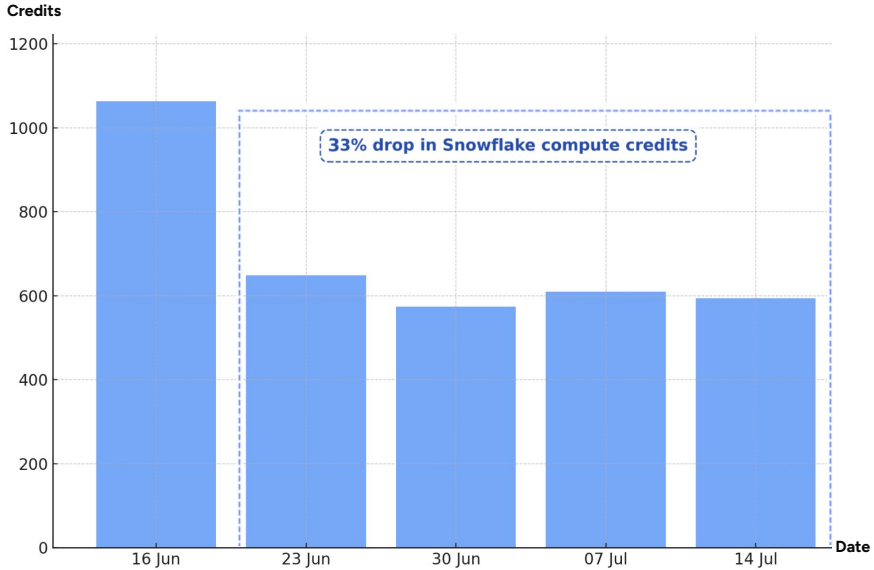

Smart Query Distribution

Yuki automatically rerouted:

40% of queries from Medium to X-Small warehouses

50% of queries from Small to X-Small warehouses

Results

33%

Cost Reduction

within just two weeks.

Substantial savings achieved across Snowflake spend.

Hours Saved on Engineering Effort

Automation freed up engineering resources, eliminating the need for manual query and warehouse optimization.

> With Yuki, we cut our Snowflake costs by 33%, saved 10 hours of manual optimization. The integration was effortless, and the impact was immediate. Yuki allows us to focus on security while it handles our data efficiency.
